

§ 3430.2

43 CFR Ch. II (10–1–99 Edition)

§ 3430.2 Application for lease.

§ 3430.2–1 Initial showing.

All preference right coal lease applications shall have contained or shall have been supplemented by the timely submission of:

(a) Information on the quantity and quality of the coal resources discovered within the boundaries of the prospecting permit area, including an average proximate analysis, sulfur content and BTU content of the coal, and all supporting geological and geophysical data used to develop the required information.

(1) Coal quantity shall be indicated by structural maps of the tops of all beds to be mined, isopachous maps of beds to be mined and interburden; and, for beds to be mined by surface mining methods, isopachous maps of the overburden. These maps shall show the location of test holes and outcrops. An estimate of the measured and indicated reserves for each bed to be mined shall be included.

(2) Coal quality data shall include, at a minimum, an average proximate analysis, sulfur content, and BTU content of the coal in each bed to be mined. Also, all supporting geological and geophysical data used to develop the required information shall be submitted.

(b) Topographic maps as available from state or Federal sources showing physical features, drainage patterns, roads and vehicle trails, utility systems, and water sources. The location of proposed development and mining operations facilities shall be identified on the maps. These maps shall include the approximate locations and extent of tailings and overburden storage areas; location and size of pit areas; and the location of water sources or other resources that may be used in the proposed operation and facilities incidental to that use.

(c) A narrative statement that includes:

(1) The anticipated scope of operations, the schedule of operations, and the types of equipment to be used;

(2) The mining method to be used and an estimate of the expected mining sequence and production rate; and

(3) The relationship, if any, between operations planned on the land applied for and existing or planned operations and facilities on adjacent lands.

(d) The authorized officer may request from the applicant, or the applicant may submit, any other information necessary to conduct an environmental analysis of the proposed mining operation, formulate mitigating measures and lease terms and determine commercial quantities.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33143, July 30, 1982]

§ 3430.2–2 Additional time.

(a) If the applicant has timely submitted some, but not all, of the information required by § 3430.2–1 of this title, the authorized officer shall request additional information and shall specify the information required.

(b) The applicant shall submit any requested information within 60 days of the date of the request. The authorized officer may grant one 60-day extension if the applicant files a written request for an extension within the first 60-day period.

[44 FR 42628, July 19, 1979. Redesignated and amended at 47 FR 33143, July 30, 1982]

§ 3430.3 Planning and environment.

§ 3430.3–1 Land use planning.

(a) As a matter of policy, the Department shall complete the processing of all preference right lease applications.

(b) Preference right lease applications shall be processed in the cycle of on-going comprehensive land use plans unless the authorized officer determines that the processing of the application, in the cycle of on-going comprehensive land use plans, will not be completed by December 1, 1984.

(c) (1) Each applicant may file a request with the authorized officer:

(i) For an estimate of when the application shall be processed in the cycle of on-going comprehensive land use plans; and

(ii) To have the applicant's application processed in advance of the period specified in the authorized officer's estimate.

(2) The request shall include a statement of how the applicant will benefit from having the application processed

more quickly than otherwise scheduled, and shall specify how the pendency of the application affects the applicant's production, marketing or use of coal before 1986.

(3) If the authorized officer concludes that the failure to process an application apart from the cycle of on-going comprehensive land use plans would cause the applicant substantial hardship, the authorized officer may process the application apart from the cycle of on-going comprehensive land use plans in a land use analysis.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33143, July 30, 1982; 52 FR 25798, July 8, 1987]

§ 3430.3-2 Environmental analysis.

(a) After the applicant has completed the initial showing required under § 3430.2 of this title, the authorized officer shall conduct an environmental analysis of the proposed preference right lease area and prepare an environmental assessment or environmental impact statement on the application.

(b) The environmental analysis may be conducted in conjunction with and included as part of the environmental impact statement required for coal activity planning under § 3420.3-4 of this title.

(c) Except for the coal preference right lease applications analyzed in the *San Juan Regional Coal Environmental Impact Statement* (March 1984), the *Savery Coal EIS* (July 1983), and the *Final Decision Record and Environmental Assessment of Coal PRLAs (Beans Spring, Table, and Black Butte Creek Projects)* (September 1982), or covered by serial numbers C-0127832, C-0123475, C-0126669, C-8424, C-8425, W-234111, C-0127834, U-1362, NM-3099, F-014996, F-029746, and F-033619, the authorized officer shall prepare environmental impact statements for all preference right lease applications for coal for which he/she proposes to issue a lease, in accordance with the following procedures:

(1) The authorized officer shall prepare adequate environmental impact statements and other National Environmental Policy Act documentation, prior to the determination that commercial quantities of coal have been discovered on the lands subject to a

preference right lease application, in order to assure, *inter alia*, that the full cost of environmental impact mitigation, including site-specific lease stipulations, is included in the commercial quantities determination for that preference right lease application.

(2) The authorized officer shall prepare and evaluate alternatives that will explore various means to eliminate or mitigate the adverse impacts of the proposed action. The impact analysis shall address each numbered subject area set forth in § 3430.4-4 of this title, except that the impact analysis need not specifically address the subject areas of Mine Planning or of Bonding. At a minimum, each environmental impact statement shall include:

(i) A "no action" alternative that examines the impacts of the projected development without the issuance of leases for the preference right lease applications;

(ii) An alternative setting forth the applicant's proposed action. This alternative shall examine the applicant's proposal, based on information submitted in the applicant's initial showing and standard lease stipulations;

(iii) An alternative setting forth the authorized officer's own proposed action. This alternative shall examine:

(A) The impacts of mining on those areas encompassed by the applicant's proposal that are found suitable for further consideration for mining after the unsuitability review provided for by subpart 3461 of this title; and

(B) The impacts of mining subject to appropriate special stipulations designed to mitigate or eliminate impacts for which standard lease stipulations may be inadequate. With respect to mitigation of significant adverse impacts, alternative lease stipulations shall be developed and preferred lease stipulations shall be identified and justified. The authorized officer shall state a preference between standard lease stipulations and special stipulations (performance standards or design criteria).

(iv) An exchange alternative, examining any reasonable alternative for exchange that the Secretary would consider were the applicant to show commercial quantities, and, in cases where, if the lands were to be leased, there is

§ 3430.4

43 CFR Ch. II (10–1–99 Edition)

a finding that the development of the coal resources is not in the public interest.

(v) An alternative exploring the options of withdrawal and just compensation and examining the possibility of Secretarial withdrawal of lands covered by a preference right lease application (assuming commercial quantities will be shown) while the Secretary seeks congressional authorization for purchase or condemnation of the applicant's property, lease or other rights.

(3) The authorized officer shall prepare a cumulative impact analysis in accordance with 40 CFR 1508.7 and 1508.25 that examines the impacts of the proposed action and the alternatives when added to other past, present, and reasonably foreseeable future actions, regardless of what agency (Federal or nonfederal) or person undertakes such other actions.

(i) The cumulative impact analysis shall include an analysis of the combined impacts of the proposed preference right leasing with the mining of currently leased coal and other reasonably foreseeable future coal development, as well as other preference right leasing in the area under examination.

(ii) The cumulative impact analysis shall also examine the impacts of the proposed preference right leasing in conjunction with impacts from non-coal activities, such as mining for other minerals, other projects requiring substantial quantities of water, and other sources of air pollution.

(4) When information is inadequate to estimate impacts reasonably, the authorized officer shall comply with the provisions of 40 CFR 1502.22(b).

(5) Each environmental impact statement shall be prepared in accordance with the Council of Environmental Quality's National Environmental Policy Act regulations, 40 CFR part 1500.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33143, July 30, 1982; 52 FR 25798, July 8, 1987]

§ 3430.4 Final showing.

§ 3430.4–1 Request for final showing.

(a) Upon completion of the environmental assessment or impact statement on the application, the author-

ized officer shall, if not previously submitted, request a final showing by the applicant.

(b) The authorized officer shall transmit to the applicant, separately or with a request for a final showing, the following:

(1) The proposed lease form, including any proposed stipulations; and

(2) A copy of the environmental assessment or impact statement on the application including a map or maps showing all areas subject to specific conditions or protective stipulations because they have been assessed or designated to be unsuitable for all or certain stipulated methods of coal mining, or because of other identified values that are not embodied in the unsuitability criteria in subpart 3461 of this title.

(c) The authorized officer shall process all preference right lease applications, except for those preference right lease applications numbered F-029746 and F-033619, in accordance with the following standards and procedures:

(1) The authorized officer shall transmit a request for final showing to each applicant for each preference right lease application for which it proposes to issue a lease.

(2) Copies of each request shall be sent to all interested parties.

(3) The request shall contain proposed lease terms and special stipulations;

(d) Within 90 days of receiving the proposed lease form, the applicant shall submit the following information:

(1) Estimated revenues;

(2) The proposed means of meeting the proposed lease terms and special conditions and the estimated costs that a prudent person would consider before deciding to operate the proposed mine, including but not limited to, the cost of developing the mine, removing the coal, processing the coal to make it salable, transporting the coal, paying applicable royalties and taxes, and complying with applicable laws and regulations, the proposed lease terms, and special stipulations; and

(3) If the applicant intends to mine the deposit in the lands covered by a preference right lease application as part of a logical mining unit, the applicant shall include the estimated costs

and revenue of the combined mining venture.

(e) The applicant may withdraw any lands from the application and delete them from the final showing if the applicant is no longer interested in leasing such lands or if such lands would be subject to special conditions or protective stipulations and the cost of mining the lands subject to these conditions or protective stipulations would adversely affect the commercial quantities determination.

(f) The applicant may delete any area subject to special conditions or protective stipulations, because it has been assessed to be unsuitable or otherwise, and the costs of mining subject to the conditions or protective stipulations, from the final showing required by paragraph (c) of this section.

(g) All data submitted by the preference right lease applicant that is labeled as privileged or confidential shall be treated in accordance with the provisions of part 2 of this title.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33143, July 30, 1982; 52 FR 25799, July 8, 1987]

§ 3430.4-2 Additional information.

(a) If the applicant for a preference right lease has submitted timely, some, but not all of the information required in § 3430.4-1 of this title, the authorized officer shall request additional information and shall specify the information required.

(b) The applicant shall submit any requested additional information within 60 days of the receipt of the request. The authorized officer may grant one 60-day extension if the applicant files a written request within the first 60-day period.

§ 3430.4-3 Costing document and public review.

(a) The authorized officer shall prepare a document that estimates the cost of compliance with all laws, regulations, lease terms, and special stipulations intended to protect the environment and mitigate the adverse environmental impacts of mining.

(1) The costs shall be calculated for each of the various numbered subject areas contained in § 3430.4-4 of this title.

(2) The authorized officer's estimated costs of compliance may be stated in ranges based on the best available information. If a range is used, he/she shall identify the number from each range that the authorized officer proposes to use in making the determination whether a particular applicant has identified coal in commercial quantities.

(b) The authorized officer shall provide for public review of the costs of environmental protection associated with the proposed mining on the preference right lease application area.

(1) The authorized officer shall send the Bureau's cost estimate document to the preference right lease applicant and provide at least 30 days for the applicant to review said document before a notice of availability is published in the FEDERAL REGISTER. Comments submitted by the applicant, and the Bureau's response to the comments, shall be made available to the public for review and comment at the time the cost estimate document is made available.

(2) The authorized officer then shall publish in the FEDERAL REGISTER a notice of the availability of the Bureau's cost estimation document.

(3) The authorized officer also shall send the cost estimation document to all interested parties, including all agencies, organizations, and individuals that participated in the environmental impact statement or the scoping process.

(4) Copies of the cost estimation document shall be submitted to the Environmental Protection Agency.

(5) The public shall be given a period of not less than 60 days from the date of the publication of the notice in the FEDERAL REGISTER to comment on the Bureau's cost estimates.

(c) The cost estimate document and all substantive comments received (or summaries thereof if the response is voluminous) shall be part of the Record of Decision for the preference right lease application(s) (See 40 CFR 1505.2).

(1) The authorized officer shall respond to each substantive comment in the Record of Decision by modifying or supplementing his/her cost estimates, or explaining why they were not modified or supplemented in response to the comments.

(2) The authorized officer shall submit a copy of the Record of Decision with the public comments and the Bureau's response to the Environmental Protection Agency.

(3) The authorized officer shall publish a notice of the availability of each Record of Decision in the FEDERAL REGISTER.

(4) No preference right lease shall be issued sooner than 30 days following publication of the notice of availability required by paragraph (c)(3) of this section.

[52 FR 25799, July 8, 1987]

§ 3430.4-4 Environmental costs.

Prior to determining that a preference right lease applicant has discovered coal in commercial quantities, the authorized officer shall include the following listed and any other relevant environmental costs in the adjudication of commercial quantities (examples may not apply in all cases, neither are they all inclusive):

(a) Permitting. (1) Surface water—cost of collecting and analyzing baseline data on surface water quality and quantity (collecting and analyzing samples, constructing and maintaining monitoring facilities, purchasing equipment needed for surface water monitoring).

(2) Groundwater—costs of collecting and analyzing baseline data on groundwater quality and quantity (collecting and evaluating samples from domestic or test wells, purchasing well casings and screens and monitoring equipment, drilling and maintenance of test wells).

(3) Air quality—costs of collecting and analyzing baseline air quality data (purchasing rain, air direction, and wind gauges and air samplers and evaporation pans).

(4) Vegetation—costs of collecting and analyzing data on indigenous vegetation (collecting and classifying samples for productivity analyses).

(5) Wildlife—costs of collecting and analyzing baseline data on wildlife species and habitats (collecting wildlife and specimens and data and purchasing traps and nets).

(6) Soils—costs of collecting and analyzing baseline soil data (collecting and analyzing soil samples by physical and chemical means).

(7) Noise—costs of collecting and analyzing baseline data on noise (purchasing necessary equipment).

(8) Socio-economics—costs of conducting social and economic studies for baseline data (collecting and evaluating social and economic data).

(9) Archaeology, history, and other cultural resources—costs of collecting and analyzing data on archaeology, history, and other cultural resources (conducting archaeological excavations and historical and cultural surveys).

(10) Paleontology—costs of collecting and analyzing paleontological data (conducting surveys and excavations).

(11) Geology—costs of collecting and analyzing baseline geological data (drilling overburden cores and conducting physical and chemical analyses).

(12) Subsidence—costs of collecting and analyzing data on subsidence (setting monuments to measure subsidence).

(13) Mine planning—costs of developing mine permit application package (development of operating, blasting, air and water pollution control, fish and wildlife, and reclamation plans).

(b) Mining—environmental mitigation required by law or proposed to be imposed by the authorized officer.

(1) Surface water protection—costs of mitigating the impacts of mining on the quantity of surface water (purchasing replacement water and transporting it) and on the quality of surface water (construction sedimentation ponds, neutralization facilities, and diversion ditches).

(2) Groundwater protection—costs of mitigating the impacts of mining on the quantity of groundwater (replacing diminished supplies or water rendered unfit for its prior use(s)) and on the quality of groundwater (treating pumped mine water, compensating for damage to water rights, sealing sedimentation ponds).

(3) Air pollution control—costs of mitigating the impacts of mining on air quality (compliance with National Ambient Air Quality Standard and Protection from Significant Deterioration requirements using water and chemical sprays for dust control, installing and operating dust and other pollution collections).

(4) Noise abatement—costs of mitigating the impacts of mining on noise levels in mining area (installing and maintaining noise mufflers on equipment and around the mine site).

(5) Wildlife—costs of mitigating impacts to wildlife species identified as reasonably likely to occur and subject to proposed lease stipulations, and including costs of compliance with the Endangered Species Act and other laws, regulations, and treaties concerning wildlife protection.

(6) Socio-economics—costs of implementing any mitigation measure the Bureau or any other government agency has imposed; and of mitigating impacts on surface owners and occupants, including relocation costs and costs of compensation for improvements, crops, or grazing values.

(7) Archaeology, history, and other cultural—costs of monitoring and inspection during mining to identify archaeological, historical, and other cultural resources, and costs of mitigating impacts to these resources identified as reasonably likely to occur and subject to proposed lease stipulations.

(8) Paleontological—costs of monitoring and inspection during mining to identify paleontological resources and costs of mitigating impacts to these resources identified as reasonably likely to occur and subject to proposed lease stipulations.

(9) Subsidence—costs of mitigating the impacts of subsidence identified as reasonably likely to occur and subject to proposed lease stipulations.

(10) Monitoring—costs of purchasing and maintaining facilities, equipment, and personnel to accomplish monitoring required as a permit condition or lease stipulation, or by law or regulation.

(c) *Reclamation.* (1) Topsoil removal and replacement—costs of reclaiming soil by stockpiling or continuous methods (removing and stockpiling and replacing topsoil, protecting the stockpile, if necessary, from erosion and compacting).

(2) Subsoil removal and replacement—costs of reclaiming subsoil by stockpiling or continuous method (removing and stockpiling and replacing subsoil, protecting the stockpile, if

necessary, from erosion and compacting).

(3) Site restoration—costs of removing structures necessary to mining operations but not part of original land features (sedimentation ponds, roads, and buildings).

(4) Grading—costs of grading soil banks to their approximate original contour before replacing topsoil and subsoil, if applicable, and revegetating the affected area.

(5) Revegetation—costs of restoring vegetative cover to the affected area after grading and replacement of topsoil and subsoil, if applicable (liming, planting, irrigating, fertilizing, cultivating, and reworking, if first efforts are unsuccessful).

(6) Bonds—costs of bonds required by Federal, State and local governments.

[52 FR 25799, July 8, 1987]

§ 3430.5 Determination of entitlement to lease.

§ 3430.5-1 Rejection of application.

(a) The authorized officer shall reject the application if:

(1) The applicant fails to show that coal exists in commercial quantities on the applied for lands; or

(2) The applicant does not respond to a request for additional information within the time period specified in § 3430.3-2 or § 3430.4-2 of this title; or

(3) The applicant otherwise failed to meet statutory or regulatory requirements; or

(4) The applicant does not permit declassification of proprietary information within the time period specified in § 3430.2-2(b) of this title.

(b)(1) The authorized officer shall reject those portions of an otherwise acceptable application which were not available for prospecting when the underlying prospecting permit was issued because the lands were claimed, developed or withdrawn from coal leasing.

(2) In any action under this subsection, the authorized officer shall reject all lands in each affected smallest legal subdivision or, if practicable, each affected 10 acre aliquot part of the subdivision.

(c) The authorized officer may reject any preference right lease application

§ 3430.5-2

that clearly cannot satisfy the commercial quantities test without preparing additional National Environmental Policy Act documentation and/or a cost estimate document as described in §§ 3430.3-2, 3430.4-3 and 3430.4-4 of this title. The following procedures apply to rejecting these preference right lease applications:

(1) When an applicant clearly fails to meet the commercial quantities test as provided in this part, the authorized officer may notify the applicant:

(i) That its preference right lease application will be rejected;

(ii) Of the reasons for the proposed rejection;

(iii) That the applicant has 60 days in which to provide additional information as to why its preference right lease application should not be rejected; and

(iv) Of the type, quantity, and quality of additional information needed for reconsideration.

(2) If, after the expiration of the 60-day period, the authorized officer has no basis on which to change his/her decision, the authorized officer shall reject the preference right lease application.

(3) If the authorized officer reconsiders and changes the decision to reject the preference right lease application, he/she shall continue to adjudicate the preference right lease application in accordance with §§ 3430.3-2, 3430.4-3, and 3430.4-4 of this title.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33143, July 30, 1982; 52 FR 25800, July 8, 1987]

§ 3430.5-2 Appeals, lack of showing.

(a) If the application is rejected because the existence of commercial quantities of coal has not been shown, the applicant may, in accordance with the procedures in part 4 of this title, file a notice of appeal and a statement of the reasons for the appeal.

(b) The applicant shall have the right to a hearing before an Administrative Law Judge if the applicant alleges that the facts in the application are sufficient to show entitlement to a lease.

(c) In such a hearing, the applicant shall bear both the burden of going forward and the burden of proof to show, by a preponderance of evidence, that

43 CFR Ch. II (10-1-99 Edition)

commercial quantities of coal exist in the proposed lease area.

§ 3430.5-3 Determination to lease.

A preference right lease shall be issued if, upon review of the application, any available land use plan and the environmental assessment or environmental impact statement, the authorized officer determines that:

(a) Coal has been discovered in commercial quantities on the lands applied for;

(b) The applicant has used reasonable economic assumptions and data to support the showing that coal has been found on the proposed lease in commercial quantities; and

(c) The conditions or protective lease stipulations assure that environmental damage can be avoided or acceptably mitigated.

[47 FR 33143, July 30, 1982]

§ 3430.5-4 Lease exchange.

(a) Upon the request of the applicant, the Secretary may initiate lease exchange procedures under subpart 3435 of this title if the lands under application have been shown to contain coal in commercial quantities.

(b) Upon the request of the authorized officer, or at the request of the regional coal team or the Governor of the affected State(s), the Secretary may initiate lease exchange procedures under subpart 3435 of this title if:

(1) The lands under application have been shown to contain commercial quantities of coal;

(2) All or a portion of the proposed lease has been assessed as lands which should be unavailable for coal development because of land use or resource conflicts or as lands which are unsuitable for coal mining under the provisions of subpart 3461 of this title; and

(3) The lands are exempted from the application of any relevant unsuitability criteria or the Secretary lacks the authority to prevent damage to or loss of the land use or resource values threatened by lease operations.

[47 FR 33143, July 30, 1982, as amended at 48 FR 37656, Aug. 19, 1983]

Bureau of Land Management, Interior

§ 3432.0-3

§ 3430.6 Lease issuance.

§ 3430.6-1 Lease terms.

Each preference right lease shall be subject to the terms provided for Federal coal leases established in part 3470 of this title.

[47 FR 33144, July 30, 1982]

§ 3430.6-2 Bonding.

The lease bond for a preference right lease shall be set in accordance with subpart 3474 of this title.

§ 3430.6-3 Duration of leases.

Preference right leases shall be issued for a term of 20 years and for so long thereafter as coal is produced in commercial quantities as defined in § 3483.1 of this title. Each lease shall be subject to readjustment at the end of the first 20-year period and at the end of each period of 10 years thereafter in accordance with subpart 3451 of this title.

[44 FR 42628, July 19, 1979. Redesignated and amended at 47 FR 33144, July 30, 1982; 50 FR 8627, Mar. 4, 1985]

§ 3430.7 Trespass.

Mining operations conducted prior to the effective date of a lease shall constitute an act of trespass and be subject to penalties specified by § 9239.5 of this title.

Subpart 3431—Negotiated Sales: Rights-of-Way

§ 3431.0-1 Purpose.

The purpose of this subpart is to provide procedures for the sale of coal that is necessarily removed in the exercise of a right-of-way issued under Title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 *et seq.*).

§ 3431.0-3 Authority.

(a) The regulations of this subpart are issued under the authority of the statutes cited in § 3400.0-3 of this title.

(b) These regulations primarily implement section 2(a)(1) of the Mineral Leasing Act of 1920, as amended by section 2 of the Act of October 30, 1978 (30 U.S.C. 201(a)(1)).

§ 3431.1 Qualified purchaser.

Any person who has acquired or applied for a right-of-way under Title V of the Federal Land Policy and Management Act of 1976 which requires the removal of coal deposits as a necessary incident to development, construction or use of the right-of-way is qualified to purchase the coal to be removed.

§ 3431.2 Terms and conditions of sale.

(a) Coal to be removed in connection with a right-of-way shall be sold to the qualified purchaser only at the estimated fair market value, as determined by the Secretary.

(b) Where the right-of-way is being used in connection with the development of a lease, the removal of coal from the right-of-way shall be subject to the same requirements for health and safety protection, surface protection and rehabilitation that apply to the lease involved, and provisions for adequate recovery and conservation of the coal deposit.

(c) Where the right-of-way is not being used in the development of a Federal coal lease, the removal of the coal shall be made subject to the Surface Mining Control and Reclamation Act of 1977, and subject to such terms and conditions as the authorized officer of the surface management agency determines are necessary: (1) To protect public health, safety, and the environment; and (2) to ensure adequate recovery and conservation of the coal deposits in the right-of-way.

(d) All terms and conditions of the sale shall be terms and conditions of the right-of-way and shall be administered under the provisions of Group 2800 of this title.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

Subpart 3432—Lease Modifications

§ 3432.0-3 Authority.

(a) The regulations of this subpart are issued under the authority of the statutes cited in § 3400.0-3 of this title.

(b) These regulations primarily implement section 3 of the Mineral Leasing Act of 1920, as amended by section

§ 3432.1

13 of the Federal Coal Leasing Amendments Act of 1976 (30 U.S.C. 203).

§ 3432.1 Application.

(a) A lessee may apply for a modification of a lease to include coal lands or coal deposits contiguous to those embraced in a lease. In no event shall the acreage in the application, when combined with the total area added by all modifications made after August 4, 1976, exceed 160 acres or the number of acres in the original lease, whichever is less.

(b) The lessee shall file the application for modification in the Bureau of Land Management State Office having jurisdiction over the lands involved (43 CFR subpart 1821), describing the additional lands desired, the lessee's needs or reasons for such modification, and the reasons why the modification would be to the advantage of the United States.

[44 FR 42628, July 19, 1979, as amended at 44 FR 56340, Oct. 1, 1979]

§ 3432.2 Availability.

(a) The authorized officer may modify the lease to include all or part of the lands applied for if he determines that: (1) The modification serves the interests of the United States; (2) there is no competitive interest in the lands or deposits; and (3) the additional lands or deposits cannot be developed as part of another potential or existing independent operation.

(b) Coal deposits underlying land the surface of which is held by a qualified surface owner, and which would be mined by other than underground mining techniques, may not be added to a lease by modification.

(c) The lands applied for shall be added to the existing lease without competitive bidding, but the United States shall receive the fair market value of the lease of the added lands, either by cash payment or adjustment of the royalty applicable to the lands added to the lease by the modification.

§ 3432.3 Terms and conditions.

(a) The terms and conditions of the original lease shall be made consistent with the laws, regulations, and lease terms applicable at the time of modification except that if the original

43 CFR Ch. II (10–1–99 Edition)

lease was issued prior to August 4, 1976, the minimum royalty provisions of section 6 of the Federal Coal Leasing Amendments Act of 1976 (30 U.S.C. 207; 43 CFR 3473.3–2) shall not apply to any lands covered by the lease prior to its modification until the lease is readjusted.

(b) Before a lease is modified, the lessee shall file a written acceptance of the conditions imposed in the modified lease and a written consent of the surety under the bond covering the original lease to the modification of the lease and to extension of the bond to cover the additional land.

(c) A lease modification shall not be made until the authorized officer has complied with the procedures and standards set out in § 3425.3 of this title.

Subpart 3435—Lease Exchange

§ 3435.0–1 Purpose.

The objective of these regulations is to provide methods for exchange of coal resources when it would be in the public interest to shift the impact of mineral operations from leased lands or portions of leased lands to currently unleased lands to preserve public resource or social values, and to carry out Congressional directives authorizing coal lease exchanges.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

§ 3435.0–3 Authority.

(a) These regulations are issued under the authority of the statutes cited in § 3400.0–3 of this title.

(b) These regulations primarily implement:

(1) Section 3 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 203);

(2) Section 510(b)(5) of the Surface Mining Control and Reclamation Act (30 U.S.C. 1260(b)(5));

(3) Section 1 of the Act of October 30, 1978 (92 Stat. 2073);

(4) Section 1 of the Act of October 19, 1980 (94 Stat. 2269); and

(5) Section 4 of the Rattlesnake National Recreation Area and Wilderness Act of 1980 (94 Stat. 2272).

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

§ 3435.1 Coal lease exchanges.

Where the Secretary determines that coal exploration, development and mining operations would not be in the public interest on an existing lease or preference right lease application or portions thereof, or where the Congress has authorized lease exchange for a class or list of leases, an existing lease or preference right lease application may be relinquished in exchange for:

- (a) Leases where the Congress has specifically authorized the issuance of a new coal lease;
- (b) The issuance of coal lease bidding rights of equal value;
- (c) A lease for a mineral listed in subpart 3526 of this title by mutual agreement between the applicant and the Secretary; and
- (d) Federal coal lease modifications; or
- (e) Any combination of the above.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

§ 3435.2 Qualified exchange proponents: Limitations.

(a) Any person who holds a Federal coal lease, or a preference right lease application that has been found to meet the commercial quantities requirements of §§ 3430.1 and 3430.5 of this title on lands described in § 3435.1 of this title is qualified to ask the Secretary to initiate an exchange.

(b) Except for leases qualified under subpart 3436 of this title, the Secretary may issue a new coal lease in exchange for the relinquishment of outstanding leases or lease applications only in those cases where the Congress has specifically authorized such exchanges.

(c) The Secretary shall evaluate each qualified exchange request and determine whether an exchange is in the public interest.

(d) Any modification of a coal lease in an exchange under this subpart shall be subject to the limitations in §§ 3432.1(a), 3432.2(b) and 3432.3(a) of this title.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

§ 3435.3 Exchange procedures.**§ 3435.3-1 Exchange notice.**

(a) The Secretary shall initiate exchange procedures by notifying in writing a Federal coal lessee or preference right lease applicant that consideration of an exchange of mineral leases or other coal lease interests is appropriate. The notification may be on the Secretary's initiative or in response to a request under § 3435.2 of this title.

(b) The exchange notice shall also be provided to the Governor of the affected State(s) concurrent with notice to the lessee or preference right lease applicant stating why the Secretary believes an exchange may be in the public interest.

(c) The exchange notice shall contain a description of the leased lands or lands under preference right lease application being considered for exchange. These lands may include all or part of an existing lease or preference right lease application.

(d) The exchange notice may contain a description of the lands for which the Secretary would grant an exchange lease or lease interest. If a coal lease modification would be granted by exchange, the lands shall be selected from those lands found acceptable for further consideration for coal leasing under § 3420.1 of this title; and

(e) The notice shall contain a request that the lessee or preference right lease applicant indicate whether he is willing to negotiate an exchange.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982; 48 FR 37656, Aug. 19, 1983]

§ 3435.3-2 Initial response by lessee or lease applicant.

(a) The lessee or preference right lease applicant wishing to negotiate an exchange shall so reply in writing. The reply may include a description of the lands on which the lessee or lease applicant would accept an exchange lease or coal lease modification.

(b) A reply to the exchange notice by a lessee or preference right lease applicant indicating willingness to enter into an exchange shall also indicate willingness to provide the geologic and economic data needed by the Secretary to determine the fair market value of

§ 3435.3-3

the lease or lease application to be relinquished. The lessee or preference right lease applicant shall also indicate willingness to provide any geologic and economic data in his possession that will help the Secretary to determine the fair market value of the potential Federal lease exchange tract or tracts.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

§ 3435.3-3 Agreement to terms.

(a) If both parties wish to proceed with the exchange, the authorized officer and the lessee or preference right lease applicant shall negotiate an exchange consistent with § 3435.1 of this title. The authorized officer shall consult with the regional coal team prior to initiation of such negotiations and shall consult again prior to finalization of the negotiated exchange.

(b) Land proposed for lease in exchange for, or for inclusion in, an existing lease or preference right lease application shall be subject to leasing under Group 3400 or 3500 of this title as appropriate, and any coal lands shall have been found to be acceptable for further consideration for leasing under § 3420.1 of this title.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982; 48 FR 37656, Aug. 19, 1983]

§ 3435.3-4 Determination of value.

The value of the land to be leased, or added by lease modification, or of the bidding rights to be issued in exchange shall, to the satisfaction of the lessee or lease applicant and the Secretary, be equal to the estimated fair market value of the lease or lease application to be relinquished.

§ 3435.3-5 Notice of public hearing.

After the lessee or lease applicant and the Secretary agree on an exchange proposal, notice of the exchange proposal shall be published in the FEDERAL REGISTER and in at least 1 newspaper of general circulation in each county or equivalent political subdivision where both the offered and selected lands are located. The notice shall announce that, upon request, at least 1 public hearing shall be held in a city or cities located near each tract

43 CFR Ch. II (10-1-99 Edition)

involved. The notice shall also contain the Secretary's preliminary findings why the proposed exchange is in the public interest. Any notice of the availability of a draft environmental assessment or environmental impact statement on the exchange may be used to comply with this section.

[47 FR 33144, July 30, 1982]

§ 3435.3-6 Consultation with Governor.

(a) The Secretary shall notify the Governor of each state in which lands in the proposed exchange are located of the terms of the exchange and the Secretary's preliminary findings why the exchange is in the public interest. The Secretary shall give each Governor 45 days to comment on the proposal prior to consummating the exchange.

(b) If, within the 45 day period, the Governor(s), in writing, objects to an exchange that involves leases or lease rights in more than one state, the Secretary will not consummate the exchange for 6 months from the date of objection. The Governor(s) may during this 6-month period submit a written statement why the exchange should not be consummated, and the Secretary shall, on the basis of this statement, reconsider the lease proposal.

[44 FR 42628, July 19, 1979, as amended at 47 FR 33144, July 30, 1982]

§ 3435.3-7 Consultation with the Attorney General.

In any exchange which, if consummated, shall result in the issuance of a Federal coal lease, the Secretary, after issuing an exchange notice under § 3435.3-1 of this title and before issuance of a written decision under § 3435.4 of this title.

(a) Shall require the lessee or lease applicant to submit the information in § 3422.3-4 of this title; and

(b) If the Attorney General, within 30 days, objects to lease issuance, shall not issue the exchange lease except after complying with the provisions of § 3422.3-4(f)(2) of this title.

§ 3435.4 Issuance of lease, lease modification or bidding rights.

(a) If, after any public hearing(s), the Secretary by written decision concludes that an exchange is in the public

interest, the Secretary shall transmit to the lessee or preference right lease applicant:

(1) A statement of the Secretary's findings that lease issuance is in the public interest;

(2) Either (i) copies of the coal or other mineral exchange lease or coal lease modification containing the terms, conditions and special stipulations under which the lease or coal lease modification is to be granted, or (ii) a statement describing the terms and conditions of the coal lease bidding rights to be granted in exchange; and

(3) A statement for execution by the lessee or preference right lease applicant relinquishing all right or interest in the lease or preference right lease application, or portion thereof, to be exchanged.

(b) The exchange lease, lease modification or coal lease bidding rights shall be issued upon relinquishment of the lease, preference right lease application, or portion thereof.

(c) The exchange lease or lease modification shall be subject to all relevant provisions of Group 3400 or 3500 of this title and 30 CFR Chapter VII, Subchapter D as appropriate.

[47 FR 33144, July 30, 1982, as amended at 50 FR 8627, Mar. 4, 1985]

Subpart 3436—Coal Lease and Coal Land Exchanges: Alluvial Valley Floors

SOURCE: 47 FR 33145, July 30, 1982, unless otherwise noted.

§ 3436.0-1 Purpose.

The purpose of this subpart is to establish criteria and procedures for the exchange of coal leases and for the exchange of fee held coal for unleased federally-owned coal in cases where surface coal mining operations on the lands that are covered by an existing coal lease or that are fee held would interrupt, discontinue or preclude farming on alluvial valley floors west of the 100th Meridian, west longitude, or materially damage the quantity or quality of water in surface or underground systems that supply those alluvial valley floors.

§ 3436.0-2 Objective.

(a) The objective of this subpart is to provide relief to persons holding leases for Federal coal deposits or fee title to coal deposits which underlie or are near alluvial valley floors and which cannot be mined through surface mining operations under section 510(b)(5) of the Surface Mining Control and Reclamation Act, through the exchange of lands, or interests therein, pursuant to the authority granted by the statutory provision.

(b) The Secretary shall exercise the authority to dispose of Federal coal deposits by lease to meet this objective when he/she determines that the exchange would serve the public interest. In determining whether such an exchange will serve the public interest, the Secretary will consider a wide variety of factors, including better Federal land management and the needs of State and local people, including needs for lands for the economy, community expansion, recreation areas, food, fiber, minerals and fish and wildlife. Unless consideration of the above factors would show otherwise, it will be assumed that an exchange will serve the public interest if substantial financial and legal commitments have been made toward development of the offered coal resource.

§ 3436.0-3 Authority.

(a) These regulations are issued under the authority of the statutes cited in § 3400.0-3 of this title.

(b) These regulations primarily implement section 510(b)(5) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1260(b)(5)).

§ 3436.0-5 Definitions.

As used in this subpart, the term *substantial financial and legal commitments* is a relative one, and the determination whether such commitments have been made, so as to qualify a person for an exchange under this subpart, will be made on a case-by-case basis. In making this determination, the Secretary will consider the level of expenditures made prior to January 1, 1977, that are related to development of the coal resource which is offered in exchange, taken together with the damages for which the person would be liable as a

§ 3436.1

43 CFR Ch. II (10–1–99 Edition)

result of any legal commitments made prior to January 1, 1977, in connection with development of said coal resource, and the Secretary will compare that level of expenditure to the estimated total cost of developing the coal resource to the point of establishing a producing surface coal mining operation.

§ 3436.1 Coal lease exchanges.

§ 3436.1–1 Qualified lease proponents.

(a) Coal lease exchanges under this program shall be available only to persons who:

(1) Hold a Federal coal lease or preference right lease application covering lands that include or are near an alluvial valley floor located west of the 100th Meridian, west longitude, where surface coal mining operations are prohibited by section 510(b)(5) of the Surface Mining Control and Reclamation Act because such operations would interrupt farming or materially damage the quantity and quality of the water in surface or underground water systems that would supply the alluvial valley floor;

(2) Have made substantial financial and legal commitments prior to January 1, 1977, in connection with the lease or preference right lease application; and

(3) Are not entitled to continue any existing surface coal mining operations pursuant to the first proviso of section 510(b)(5) of the Surface Mining Control and Reclamation Act.

(b) Persons seeking an exchange bear the burden of establishing that they are qualified pursuant to paragraph (a) of this section. The Secretary shall accept a determination made pursuant to 30 CFR 785.19(c) as conclusive evidence of the existence of an alluvial valley floor.

§ 3436.1–2 Federal coal deposits subject to lease by exchange.

The lease offered by the Secretary in exchange for existing coal leases shall be for Federal coal deposits determined to be acceptable for further consideration for coal leasing pursuant to § 3420.1–5 or § 3420.2–3 of this title.

(a) Any person meeting the requirements of § 3436.1–1(a) of this title may

apply for a lease exchange. No special form of application is required.

(b) The Secretary shall evaluate each exchange request to determine whether the proponent is qualified and whether the exchange serves the public interest. The exchange shall be processed in accordance with the procedures in subpart 3435 of this title for other lease and lease interest exchanges.

(c) After the Secretary and the exchange proponent have agreed to terms pursuant to § 3435.3–3 of this title, the Secretary may elect to consider the exchange proposal in conjunction with the activity planning process for the coal production region in which the lands proposed to be leased are located pursuant to § 3420.3 of this title. If the Secretary elects to process the exchange proposal in this manner, the tracts identified for use in the lease exchange shall be:

(1) Delineated for analysis pursuant to § 3420.3–3 of this title;

(2) Ranked as having high desirability pursuant to § 3420.3–4(a) of this title; and

(3) Selected for inclusion for analysis purposes in alternative proposed lease sale schedules pursuant to § 3420.3–4(c) of this title. Such tracts shall then be the subject of environmental analysis, public comment and consultation pursuant to §§ 3420.3 and 3420.4 of this title.

(d) If the Secretary elects to process the exchange proposal independently of the activity planning process, the Secretary shall consider the environmental and resource information acquired during the land use planning process and found in the most recent regional environmental impact statement completed under the Federal coal management program. An environmental assessment or environmental impact statement shall be prepared on the proposed exchange prior to the public hearings and consultation required by §§ 3435.3–5 through 3435.3–7 of this title.

(e) In determining under § 3435.3–4 of this title the estimated value of the lease or preference right lease application to be relinquished, the Secretary shall proceed as though there were no prohibitions on surface mining operations on the lands covered by the

lease or preference right lease application.

(f) The exchange proponent shall bear all administrative costs of the exchange, including the cost of establishing the value of each lease involved in the exchange, if the exchange is completed.

[47 FR 33145, July 30, 1982, as amended at 50 FR 42023, Oct. 17, 1985]

§ 3436.2 Fee coal exchanges.

§ 3436.2-1 Qualified exchange proponents.

(a) Fee coal exchanges under this program shall only be available to persons who:

(1) Own coal west of the 100th Meridian, west longitude, underlying or near an alluvial valley floor where surface coal mining operations are prohibited by section 510(b)(5) of the Surface Mining Control and Reclamation Act because such operations would interrupt farming or materially damage the quantity and quality of the water in surface or underground water systems that would supply the alluvial valley floor; and

(2) Are not entitled to continue any existing surface coal mining operation pursuant to the first proviso to section 510(b)(5) of the Surface Mining Control and Reclamation Act.

(b) Exchange proponents bear the burden of establishing their qualifications pursuant to paragraph (a) of this section. The Secretary shall accept a determination made pursuant to 30 CFR 785.19(c) as conclusive evidence of the existence of an alluvial valley floor.

§ 3436.2-2 Federal coal deposits subject to disposal by exchange.

The coal deposits offered in exchange by the Secretary shall be determined to be acceptable for further consideration for coal leasing pursuant to § 3420.1 of this title and shall be in the same State as the coal deposit offered in exchange by the proponent.

§ 3436.2-3 Exchange procedures.

(a) Any person meeting the requirements of § 3436.2-1(a) of this title may apply for an exchange. No special form of application is required. Any ex-

change proposal should be directed to the District Manager for the Bureau of Land Management district in which the Federal coal deposits are located.

(b) The Secretary shall evaluate each exchange request to determine whether the proponent is qualified.

(c) After the authorized officer and the owner of the coal deposit underlying an alluvial valley floor identify Federal coal deposits that are suitable for consideration for disposition through exchange, the exchange shall be processed in accordance with part 2200 of this title, except as provided in this section.

(d) The Secretary may consolidate the environmental analysis for the proposed exchange with the regional environmental impact statement prepared on alternative leasing schedules for the coal production region in which the Federal coal deposits are located pursuant to § 3420.3-4 of this title. If the environmental analysis is not so consolidated, the Secretary shall consider environmental and other resource information obtained during the land use planning process or at other stages of the coal management program in preparing an appropriate environmental analysis or environmental impact statement on the proposed exchange.

(e) Exchanges shall be made on an equal value basis, provided that values of the lands exchanged may be equalized by the payment of money to the grantor or the Secretary so long as the payment does not exceed 25 percent of the total value of the lands or interests transferred out of Federal ownership. In determining the value of the coal deposit underlying or near an alluvial valley floor, the Secretary shall proceed as though there were no prohibition on surface coal mining operations on the property.

Subpart 3440—Licenses to Mine

Sec.

3440.0-3 Authority.

3440.1 Terms.

3440.1-1 Forms.

3440.1-2 Qualifications.

3440.1-3 Limitations on coal use.

§ 3440.0-3

- 3440.1-4 Area and duration of license.
3440.1-5 Compliance with Surface Mining Control and Reclamation Act.
3440.1-6 Cancellation or forfeiture.

AUTHORITY: 30 U.S.C. 181 *et seq.*

SOURCE: 44 FR 42634, July 19, 1979, unless otherwise noted.

Subpart 3440—Licenses to Mine

§ 3440.0-3 Authority.

(a) These regulations are issued under the authority of the statutes cited in § 3400.0-3 of this title.

(b) These regulations primarily implement section 8 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 208).

§ 3440.1 Terms.

§ 3440.1-1 Forms.

(a) Four copies of the application for a license to mine coal for domestic needs or for a renewal of such a license shall be filed on a form approved by the Director, or a substantial equivalent of the form, in the Bureau of Land Management State Office having jurisdiction over the lands involved (43 CFR subpart 1821).

(b) The original application or any renewal application shall be accompanied by the fee prescribed in subpart 3473 of this title, except when the application is filed by a relief agency.

§ 3440.1-2 Qualifications.

(a) An individual, association or individuals, municipality, charitable organization or relief agency may hold a license to mine. A municipality shall file the information required under § 3472.2-5(b) of this title.

(b) A license to mine shall not be issued to a private corporation.

(c) A license to mine shall not be issued to a minor, but may be issued to a legal guardian on behalf of a minor.

§ 3440.1-3 Limitations on coal use.

(a) A license to mine may be issued to a municipality for the nonprofit mining and disposal of coal to its residents for household use only. Under such a license, a municipality may not mine coal either for its own use or for nonhousehold use such as for factories,

43 CFR Ch. II (10-1-99 Edition)

stores, other business establishments and heating and lighting plants.

(b) Coal extracted under a license to mine shall not be disposed of for profit.

§ 3440.1-4 Area and duration of license.

(a) A license to mine for an individual or association in the absence of unusual conditions or necessity, shall be limited to a legal subdivision of 40 acres or less and may be revoked at any time. Each license to mine shall terminate at the end of 2 years from the date of issuance, unless an application for a 2 year renewal is filed and approved before its termination date.

(b) A license to mine to a municipality may not exceed 320 acres for a municipality of less than 100,000 population, 1,280 acres for a municipality between 100,000 and 150,000 population, and 2,560 acres for a municipality of 150,000 population or more. A license to mine to a municipality shall terminate at the end of 4 years from the date of issuance, unless an application for a 4 year renewal is filed and approved before the termination date.

(c) (1) The authorized officer may authorize a recognized and established relief agency of any state upon the agency's request, to take government-owned coal deposits within the state and provide the coal to localities where it is needed to supply families on the rolls of such agency who require coal for household use but are unable to pay for that coal.

(2) Tracts shall be selected in areas assessed as acceptable for mining operations and at points convenient to supply the families in a locality. Each family shall be restricted to the amount of coal actually needed for its use, not to exceed 20 tons annually.

(3) Coal shall be taken from such tracts only by those with written authority from the relief agency. All mining shall be done pursuant to such authorization.

SOURCE: 44 FR 42635, July 19, 1979, unless otherwise noted.

Subpart 3451—Continuation of Leases: Readjustment of Terms

§ 3451.1 Readjustment of lease terms.

(a) (1) All leases issued prior to August 4, 1976, shall be subject to readjustment at the end of the current 20-year period and at the end of each 10-year period thereafter. All leases issued after August 4, 1976, shall be subject to readjustment at the end of the first 20-year period and, if the lease is extended, each 10-year period thereafter.

(2) Any lease subject to readjustment which contains a royalty rate less than the minimum royalty prescribed in § 3473.3–2 of this title shall be readjusted to conform to the minimum prescribed in that section.

(b) If the lease became subject to readjustment of terms and conditions before August 4, 1976, but the authorized officer prior to that date neither readjusted the terms and conditions nor informed the lessee whether or not a readjustment would be made, the terms and conditions of that lease shall not be readjusted retroactively to conform to the requirements of the Federal Coal Leasing Amendments Act of 1976.

(c) (1) The authorized officer shall, prior to the expiration of the current or initial 20-year period or any succeeding 10-year period thereafter, notify the lessee of any lease which becomes subject to readjustment after June 1, 1980, whether any readjustment of terms and conditions will be made prior to the expiration of the initial 20-year period or any succeeding 10-year period thereafter. On such a lease the failure to so notify the lessee shall mean that the United States is waiving its right to readjust the lease for the readjustment period in question.

(2) In any notification that a lease will be readjusted under this subsection, the authorized officer will prescribe when the decision transmitting the readjusted lease terms will be sent to the lessee. The time for transmitting the information will be as soon as possible after the notice that the lease shall be readjusted, but will not be longer than 2 years after such notice. Failure to send the decision transmitting the readjusted lease terms in the specified period shall constitute a waiver of the right to readjust, unless

§ 3451.2

the delay is caused by events beyond the control of the Department.

(d) In the notification that the lease will be readjusted, the authorized officer may require the lessee to furnish information specified in § 3422.3-4 of this title for review by the Attorney General as required by section 27(1) of the Mineral Leasing Act of 1920, as amended. If the authorized officer requests the information specified, no lease readjustment shall be effective until 30 days after the authorized officer has transmitted the required information to the Attorney General. The lease shall be subject to cancellation if the lessee fails to furnish the required information within the time allowed.

(e) The Governor of the affected State will be sent a copy of the readjusted lease terms.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33146, July 30, 1982; 48 FR 37656, Aug. 19, 1983; 53 FR 37300, Sept. 26, 1988]

§ 3451.2 Notification of readjusted lease terms.

(a) If the notification that the lease will be readjusted did not contain the readjusted lease terms, the authorized officer will, within the time specified in the notice that the lease shall be readjusted, notify the lessee by decision of the readjusted lease terms.

(b) The decision transmitting the readjusted lease terms and conditions to the lessee(s) of record shall constitute the final action of the Bureau of Land Management on all the provisions contained in a readjusted lease and will be provided to the lessee(s) of record prior to the anniversary date. The effective date of the readjusted lease shall not be affected by the filing of any appeal of, or a civil suit regarding, any of the readjusted terms and conditions.

(c) The readjusted lease terms and conditions shall become effective on the anniversary date;

(d) The lessee may appeal the decision of the authorized officer in accordance with the procedure set out in 43 CFR part 4; and

(e) Regardless of whether an appeal is filed by the lessee(s), all of the readjusted lease terms and conditions, including, but not limited to, the reporting and payment of rental and royalty,

43 CFR Ch. II (10-1-99 Edition)

shall be effective on the anniversary date.

[47 FR 33146, July 30, 1982, and 53 FR 37300, Sept. 26, 1988]

Subpart 3452—Relinquishment, Cancellation, and Termination

§ 3452.1 Relinquishment.

§ 3452.1-1 General.

The lessee may surrender the entire lease, a legal subdivision thereof, an aliquot part thereof (not less than 10 acres) or any bed of the coal deposit therein. A partial relinquishment shall describe clearly the surrendered parcel or coal deposits and give the exact acreage relinquished. If the authorized officer accepts the relinquishment of any coal deposits in a lease, the coal reserves shall be adjusted in accordance with part 3480 of this title.

[47 FR 33147, July 30, 1982, as amended at 50 FR 8627, Mar. 4, 1985]

§ 3452.1-2 Where filed.

A relinquishment shall be filed in triplicate by the lessee in the Bureau of Land Management State Office having jurisdiction over the lands involved (43 CFR subpart 1821).

§ 3452.1-3 Acceptance.

The effective date of the lease relinquishment shall, upon approval by an authorized officer, be the date on which the lessee filed the lease relinquishment. No relinquishment shall be approved until the authorized officer determines that the relinquishment will not impair the public interest, that the accrued rentals and royalties have been paid and that all the obligations of the lessee under the regulations and terms of the lease have been met.

[47 FR 33147, July 30, 1982]

§ 3452.2 Cancellation.

§ 3452.2-1 Cause for cancellation.

(a) The authorized officer, after compliance with § 3452.2-2 of this title, may take the appropriate steps to institute proceedings in a court of competent jurisdiction for the cancellation of the lease if the lessee: (1) Fails to comply with the provisions of the Mineral

Bureau of Land Management, Interior

§ 3453.2-2

Leasing Act of 1920, as amended; (2) fails to comply with any applicable general regulations; or (3) defaults in the performance of any of the terms, covenants, and stipulations of the lease.

(b) Any lease issued before August 4, 1976, on which the lessee does not meet the diligent development requirements or any lease whenever issued on which the lessee does not meet the continued operation requirements shall be subject to cancellation in whole or in part. In deciding whether to initiate lease cancellation proceedings under this subsection, the Secretary shall not consider adverse circumstances which arise out of (1) normally foreseeable costs of compliance with requirements for environmental protection; (2) commonly experienced delays in delivery of supplies or equipment; or (3) inability to obtain sufficient sales.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33147, July 30, 1982]

§ 3452.2-2 Cancellation procedure.

The lessee shall be given notice of any default, breach or cause of forfeiture and be afforded 30 days to correct the default, to request an extension of time in which to correct the default, or to submit evidence showing why the lease should not be cancelled. The Governor of the affected State(s) shall be given reasonable notice of action taken by the Department of the Interior to initiate cancellation of the lease.

[44 FR 42635, July 19, 1979, as amended at 48 FR 37656, Aug. 19, 1983]

§ 3452.3 Termination.

(a) Any lease issued or readjusted after August 4, 1976, shall be terminated if the lessee does not meet the diligent development requirements.

(b) Should a lease be relinquished, cancelled or terminated for any reason, all deferred bonus payments shall be immediately payable and all rentals and royalties, including advance royalties, already paid or due, shall be forfeited to the United States.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33147, July 30, 1982]

Subpart 3453—Transfers by Assignment, Sublease or Otherwise

§ 3453.1 Qualifications.

(a) Leases may be transferred in whole or in part to any person, association or corporation qualified under subpart 3472 of this title to hold such leases, except as provided by § 3420.1-4(b)(1)(iv) and (2)(ii) of this title.

(b) Preference right lease applications may be transferred as a whole only to a person, association or corporation qualified under subpart 3472 of this title to hold a lease.

(c) Exploration licenses may be transferred in whole or in part subject to § 3453.3(b) of this title.

[47 FR 33147, July 30, 1982]

§ 3453.2 Requirements.

§ 3453.2-1 Application.

Applications for approval of any transfer of a lease, preference right lease application or exploration license or any interest in a lease or license, whether by direct assignment, working agreement, transfer of royalty interest, sublease, or otherwise, shall be filed within 90 days from final execution.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33147, July 30, 1982]

§ 3453.2-2 Forms and statements.

(a) Transfers of any record title interest shall be filed in triplicate and shall be accompanied by a request for approval from the transferee.

(b) No specific form need be used for requests for approval of transfers. The request for approval shall contain evidence of the transferee's qualifications, including a statement of Federal coal lease acreage holdings. This evidence shall consist of the same showing of qualifications required of a lease applicant by subpart 3472 of this title. A single signed copy of the qualifications statement is sufficient.

(c) A separate instrument of transfer shall be filed for each lease when transfers involve record titles. When transfers to the same person, association, or corporation involving more than one lease are filed at the same time, one request for approval and one showing as

§ 3453.2-3

to the qualifications of the transferee shall be sufficient.

(d) A single signed copy of all other instruments of transfer is sufficient, except that collateral assignments and other security or mortgage documents shall not be accepted for filing.

(e) Any transfer of a record title interest or assignment of operating rights shall be accompanied by the transferee's submission of the information specified in §3422.3-4 of this title, including the holdings of any affiliate(s) (including joint ventures) of the transferees, or a statement incorporating a prior submission of the specified information by reference to the date and lease, license or application serial number of the submission, and containing any and all changes in holdings since the date of the prior submission.

(f) Any document of transfer which does not contain a description of all consideration or value paid or promised for the transfer shall be accompanied by a separate statement of all consideration or value, whether cash, property, future payments or any other type of consideration, paid or promised for the transfer.

(g) Information submitted to comply with paragraphs (e) and (f) of this section may be labeled as proprietary data and shall be treated in accordance with the laws and regulations governing the confidentiality of such information.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33147, July 30, 1982]

§ 3453.2-3 Filing location and fee.

Instruments of transfer and requests for approval shall be filed in the Bureau of Land Management office having jurisdiction over the leased lands proposed for transfer (see 43 CFR subpart 1821). Each instrument of transfer shall be accompanied by a nonrefundable filing fee (see 43 CFR 3473.2).

[47 FR 33147, July 30, 1982]

§ 3453.2-4 Bonds.

(a) If a bond is required, it shall be furnished before a lease, preference right lease application or exploration license may be approved for transfer. If the original lease, preference right lease application or exploration license

43 CFR Ch. II (10-1-99 Edition)

required the maintenance of a bond, the transferee shall submit either a written consent from the surety to the substitution of the transferee as principal or a new bond with the transferee as principal. Transfers of any part of the leased or licensed lands shall be described by legal subdivisions. Before any transfer of part of a lease or license is approved, the transferee shall submit: (1) A written statement from the surety that it agrees to the transfer and that it agrees to remain bound as to the interest retained by the lessee or licensee; and (2) a new bond with the transferee as principal covering the portion transferred.

(b) The transferor and the surety shall continue to be responsible for the performance of any obligation under the lease, preference right lease application or exploration license until the effective date of the approval of the transfer. If the transfer is not approved, the obligation to the United States shall continue as though no such transfer had been filed for approval. After the effective date of approval, the transferee, including any sublessee, applicant or licensee, and the transferee's surety shall be responsible for all lease, application or license obligations, notwithstanding any terms of the transfer to the contrary.

[47 FR 33147, July 30, 1982, as amended at 47 FR 38131, Aug. 30, 1982]

§ 3453.2-5 Effect of partial assignment.

A transfer of full record-title to only part of the lands, or any bed of the coal deposits therein, shall segregate the transferred and retained portions into separate and distinct leases or licenses, with the retained portion keeping the original serial number. The newly segregated lease or license shall be assigned a new serial number and shall contain the same terms and conditions as the original lease or license.

[47 FR 33148, July 30, 1982]

§ 3453.3 Approval.

§ 3453.3-1 Conditions for approval.

(a) No transfer of a lease shall be approved if:

(1) The transferee is not qualified to hold a lease or an interest in a lease

under subpart 3472 of this title or under §§ 3420.1-3(b)(1)(iv) and 3420.1-3(b)(2)(ii) of this title;

(2) The lease bond is insufficient;

(3) The filing fee has not been submitted;

(4) The transferee would hold the lease in violation of the acreage requirements set out in subpart 3472 of this title;

(5) The transfer would create an overriding royalty or other interest in violation of § 3473.3-2 of this title;

(6) The lease account is not in good standing;

(7) The information required under § 3453.2-2(e) and (f) of this title has not been submitted; or

(8) The transferee is subject to the prohibition in § 3472.1-2(e) of this title.

(b) When the licensee proposes to transfer an exploration license, any other participating parties in the license shall be given the right of first refusal. If none of the participating parties wishes to assume the license, the license may be transferred if:

(1) The exploration bond is sufficient;

(2) The filing fee has been submitted; and

(3) The license account is in good standing.

(c) A preference right lease application may be transferred as a whole only to any party qualified to hold a lease under subpart 3472 of this title.

[47 FR 33148, July 30, 1982, as amended at 50 FR 42023, Oct. 17, 1985]

§ 3453.3-2 Disapproval of transfers.

(a) The authorized officer shall deny approval of a transfer if any reason why the transfer cannot be approved (listed in § 3453.3-1 of this title) is not cured within the time established by the authorized officer in a decision notifying the applicant for approval why the transfer cannot be approved.

(b) The authorized officer shall not approve a transfer of a lease until 30 days after the requirements of § 3422.3-4 of this title have been met.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33148, July 30, 1982]

§ 3453.3-3 Effective date.

A transfer shall take effect the first day of the month following its final ap-

proval by the Bureau of Land Management, or if the transferee requests in writing, the first day of the month of the approval. The Governor of the affected State(s) shall be given reasonable notice of any lease transfer.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33148, July 30, 1982; 48 FR 37656, Aug. 19, 1983]

§ 3453.3-4 Extensions.

(a) The filing of or approval of any transfer shall not alter any terms or extend any time periods under the lease, including those dealing with readjustment of the lease and the diligent development and continued operation on the lease.

(b) The filing of or approval of a transfer of an exploration license shall not extend the term of the license beyond the statutory 2-year maximum.

[44 FR 42635, July 19, 1979, as amended at 47 FR 33148, July 30, 1982; 47 FR 38131, Aug. 30, 1982]

AUTHORITY: The Mineral Leasing Act of 1920, as amended and supplemented (30 U.S.C. 181 *et seq.*), the Mineral Leasing Act for Acquired Lands of 1947, as amended (30 U.S.C. 351-359), the Multiple Mineral Development Act of 1954 (30 U.S.C. 521- 531 *et seq.*), the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 *et seq.*) and the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 *et seq.*).

SOURCE: 44 FR 42638, July 19, 1979, unless otherwise noted.

Subpart 3461—Federal Lands Review: Unsuitability for Mining

§ 3461.0-3 Authority.

(a) These regulations are issued under the authority of the statutes listed in § 3400.0-3 of this title.

(b) These regulations primarily implement:

(1) The general unsuitability criteria in section 522(a) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272(a));

(2) The Federal lands review in section 522(b) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272(b)); and

(3) The prohibitions against mining certain lands in section 522(e) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272(e)).

§ 3461.0-6 Policy.

The Department shall carry out the review of Federal lands under section 522(b) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272(b)) principally through land use planning assessments by the surface management agency regarding the unsuitability of Federal lands for all or certain stipulated methods of coal mining.

§ 3461.0-7 Scope.

Each criterion in § 3461.1 of this title uses the phrase “shall be considered unsuitable” as shorthand for “shall be considered unsuitable for all or certain stipulated methods of coal mining in-

43 CFR Ch. II (10-1-99 Edition)

volving surface coal mining operations, as defined in § 3400.0-5(mm) of this title.

[44 FR 42638, July 19, 1979, as amended at 47 FR 33148, July 30, 1982]

§ 3461.1 Underground mining exemption from criteria.

(a) Federal lands with coal deposits that would be mined by underground mining methods shall not be assessed as unsuitable where there would be no surface coal mining operations, as defined in § 3400.0-5 of this title, on any lease, if issued.

(b) Where underground mining will include surface operations and surface impacts on Federal lands to which a criterion applies, the lands shall be assessed as unsuitable unless the surface management agency finds that a relevant exception or exemption applies.

[44 FR 42638, July 19, 1979, as amended at 47 FR 33149, July 30, 1982. Redesignated at 52 FR 46473, Dec. 8, 1987]

§ 3461.2 Unsuitability assessment procedures.

§ 3461.2-1 Assessment and land use planning.

(a)(1) Each of the unsuitability criteria shall be applied to all coal lands with development potential identified in the comprehensive land use plan or land use analysis. For areas where 1 or more unsuitability conditions are found and for which the authorized officer of the surface management agency could otherwise regard coal mining as a likely use, the exceptions and exemptions for each criterion may be applied.

(2) Public comments on the application of the unsuitability criteria shall be solicited by a notice published in the FEDERAL REGISTER. This call for comments may be part of the call for public comments on the draft land-use plan or land-use analysis. This notice shall announce the availability of maps and other information describing the results of the application and the application process used.

(3) The authorized officer of the surface management agency shall describe in the comprehensive land use plan or land use analysis the results of the application of each unsuitability criterion, exception and exemption. The

authorized officer of the surface management agency shall state in the plan or analysis those areas which could be leased only subject to conditions or stipulations to conform to the application of the criteria or exceptions. Such areas may ultimately be leased provided that these conditions or stipulations are contained in the lease.

(b)(1) The authorized officer shall make his/her assessment on the best available data that can be obtained given the time and resources available to prepare the plan. The comprehensive land use plan or land use analysis shall include an indication of the adequacy and reliability of the data involved. Where either a criterion or exception (when under paragraph (a) of this section the authorized officer decides that application of an exception is appropriate) cannot be applied during the land use planning process because of inadequate or unreliable data, the plan or analysis shall discuss the reasons therefor and disclose when the data needed to make an assessment with reasonable certainty would be generated. In the case of Criterion 19, application shall be made before approval of the mining permit. In the case of other deferred criteria, application shall be made prior to finalizing the environmental analysis for the area being studied for coal leasing. The authorized officer shall make every effort within the time and resources available to collect adequate and reliable data which would permit the application of Criterion 19 in the land use or activity planning process. When those data are obtained, the authorized officer shall make public his/her assessment on the application of the criterion or, if appropriate, the exception and the reasons therefor and allow opportunity for public comment on the adequacy of the application as required by paragraph (a)(2) of this section.

(2) No lease tract shall be analyzed in a final regional lease sale environmental impact statement prepared under § 3420.4-5 of this title without significant data material to the application to the tract of each criterion described in § 3461.1 of this title, except, where necessary, criterion 19. If the data are lacking for the application of a criterion or exception to only a por-

tion of the tract, and if the authorized officer determines that it is likely that stipulations in the lease or permit to conduct surface coal mining operations could avoid any problems which may result from subsequent application of the criterion or exception, such tract may be included and analyzed in the regional lease sale environmental impact statement.

(c) Any unsuitability assessments which result either from a designation or a termination of a designation of Federal lands as unsuitable by the Office of Surface Mining Reclamation and Enforcement, or from changes warranted by additional data acquired in the activity planning process, may be made without formally revising or amending the comprehensive land use plan or analysis.

[44 FR 42638, July 19, 1979, as amended at 47 FR 33149, July 30, 1982; 51 FR 18888, May 23, 1986. Redesignated and amended at 52 FR 46473, Dec. 8, 1987]

§ 3461.2-2 Consultation on unsuitability assessments.

(a) Prior to adopting a comprehensive land use plan or land use analysis which assesses Federal lands as unsuitable for coal mining, the Secretary or other surface management agency shall complete the consultation set out in §§ 3420.1-6 and 3420.1-7 of this title.

(b) When consultation or concurrence is required in the application of any criterion or exception in § 3461.1 of this title, the request for advice or concurrence, and the reply thereto, shall be in writing. Unless another period is provided by law, the authorized officer shall specify that the requested advice, concurrence or nonconcurrence be made within 30 days.

(c) When the authorized officer does not receive a response either to a request for concurrence which is required by this subpart but not by law, or to consultation within the specified time, he or she may proceed as though concurrence had been given or consultation had occurred.

[44 FR 42638, July 19, 1979, as amended at 47 FR 33149, July 30, 1982. Redesignated at 52 FR 46473, Dec. 8, 1987]

§ 3461.3

43 CFR Ch. II (10–1–99 Edition)

§ 3461.3 Relationship of leasing to unsuitability assessment.

§ 3461.3–1 Application of criteria on unleased lands.

(a) The unsuitability criteria shall only be applied, prior to lease issuance, to all lands leased after July 19, 1979.

(b) The unsuitability criteria shall be initially applied either:

(1) During land use planning or the environmental assessment conducted for a specific lease application; or

(2) During land use planning under the provisions of § 3420.1–4 of this title.

[47 FR 33149, July 30, 1982. Redesignated at 52 FR 46473, Dec. 8, 1987]

§ 3461.3–2 Application of criteria on leased lands.

The unsuitability criteria shall not be applied to leased lands.

[47 FR 33149, July 30, 1982. Redesignated at 52 FR 46473, Dec. 8, 1987]

§ 3461.4 Exploration.

(a) Assessment of any area as unsuitable for all or certain stipulated methods of coal mining operations pursuant to section 522 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272) and the regulations of this subpart does not prohibit exploration of such area under subpart 3410 and Part 3480 of this title.

(b) An application for an exploration license on any lands assessed as unsuitable for all or certain stipulated methods of coal mining shall be reviewed by the Bureau of Land Management to ensure that exploration does not harm any value for which the area has been assessed as unsuitable.

[44 FR 42638, July 19, 1979. Redesignated and amended at 47 FR 33149, July 30, 1982; 50 FR 8627, Mar. 4, 1985. Further redesignated at 52 FR 46473, Dec. 8, 1987]

§ 3461.5 Criteria for assessing lands unsuitable for all or certain stipulated methods of coal mining.

(a)(1) *Criterion Number 1.* All Federal lands included in the following land systems or categories shall be considered unsuitable: National Park System, National Wildlife Refuge System, National System of Trails, National Wilderness Preservation System, Na-

tional Wild and Scenic Rivers System, National Recreation Areas, lands acquired with money derived from the Land and Water Conservation Fund, National Forests, and Federal lands in incorporated cities, towns, and villages.

(2) *Exceptions.* (i) A lease may be issued within the boundaries of any National Forest if the Secretary finds no significant recreational, timber, economic or other values which may be incompatible with the lease; and (A) surface operations and impacts are incident to an underground coal mine, or (B) where the Secretary of Agriculture determines, with respect to lands which do not have significant forest cover within those National Forests west of the 100th Meridian, that surface mining may be in compliance with the Multiple-Use Sustained-Yield Act of 1960, the Federal Coal Leasing Amendments Act of 1976 and the Surface Mining Control and Reclamation Act of 1977.

(ii) A lease may be issued within the Custer National Forest with the consent of the Department of Agriculture as long as no surface coal mining operations are permitted.

(3) *Exemptions.* The application of this criterion to lands within the listed land systems and categories is subject to valid existing rights, and does not apply to surface coal mining operations existing on August 3, 1977.

(b)(1) *Criterion Number 2.* Federal lands that are within rights-of-way or easements or within surface leases for residential, commercial, industrial, or other public purposes, on federally owned surface shall be considered unsuitable.

(2) *Exceptions.* A lease may be issued, and mining operations approved, in such areas if the surface management agency determines that:

(i) All or certain types of coal development (e.g., underground mining) will not interfere with the purpose of the right-of-way or easement; or

(ii) The right-of-way or easement was granted for mining purposes; or

(iii) The right-of-way or easement was issued for a purpose for which it is not being used; or

Bureau of Land Management, Interior

§ 3461.5

(iv) The parties involved in the right-of-way or easement agree, in writing, to leasing; or

(v) It is impractical to exclude such areas due to the location of coal and method of mining and such areas or uses can be protected through appropriate stipulations.

(3) *Exemptions.* This criterion does not apply to lands: To which the operator made substantial legal and financial commitments prior to January 4, 1977; on which surface coal mining operations were being conducted on August 3, 1977; or which include operations on which a permit has been issued.

(c)(1) *Criterion Number 3.* The terms used in this criterion have the meaning set out in the Office of Surface Mining Reclamation and Enforcement regulations at Chapter VII of Title 30 of the Code of Federal Regulations. Federal lands affected by section 522(e) (4) and (5) of the Surface Mining Control and Reclamation Act of 1977 shall be considered unsuitable. This includes lands within 100 feet of the outside line of the right-of-way of a public road or within 100 feet of a cemetery, or within 300 feet of any public building, school, church, community or institutional building or public park or within 300 feet of an occupied dwelling.

(2) *Exceptions.* A lease may be issued for lands:

(i) Used as mine access roads or haulage roads that join the right-of-way for a public road;

(ii) For which the Office of Surface Mining Reclamation and Enforcement has issued a permit to have public roads relocated;

(iii) If, after public notice and opportunity for public hearing in the locality, a written finding is made by the authorized officer that the interests of the public and the landowners affected by mining within 100 feet of a public road will be protected.

(iv) For which owners of occupied dwellings have given written permission to mine within 300 feet of their buildings.

(3) *Exemptions.* The application of this criterion is subject to valid existing rights, and does not apply to surface coal mining operations existing on August 3, 1977.

(d)(1) *Criterion Number 4.* Federal lands designated as wilderness study areas shall be considered unsuitable while under review by the Administration and the Congress for possible wilderness designation. For any Federal land which is to be leased or mined prior to completion of the wilderness inventory by the surface management agency, the environmental assessment or impact statement on the lease sale or mine plan shall consider whether the land possesses the characteristics of a wilderness study area. If the finding is affirmative, the land shall be considered unsuitable, unless issuance of noncompetitive coal leases and mining on leases is authorized under the Wilderness Act and the Federal Land Policy and Management Act of 1976.

(2) *Exemption.* The application of this criterion to lands for which the Bureau of Land Management is the surface management agency and lands in designated wilderness areas in National Forests is subject to valid existing rights.

(e)(1) *Criterion Number 5.* Scenic Federal lands designated by visual resource management analysis as Class I (an areas of outstanding scenic quality or high vessel sensitivity) but not currently on the National Register of Natural Landmarks shall be considered unsuitable.

(2) *Exception.* A lease may be issued if the surface management agency determines that surface coal mining operations will not significantly diminish or adversely affect the scenic quality of the designated area.

(3) *Exemptions.* This criterion does not apply to lands: to which the operator has made substantial legal and financial commitments prior to January 4, 1977; on which surface coal mining operations were being conducted on August 3, 1977, or which include operations on which a permit has been issued.

(f)(1) *Criterion Number 6.* Federal lands under permit by the surface management agency, and being used for scientific studies involving food or fiber production, natural resources, or technology demonstrations and experiments shall be considered unsuitable for the duration of the study, demonstration or experiment, except where

mining could be conducted in such a way as to enhance or not jeopardize the purposes of the study, as determined by the surface management agency, or where the principal scientific user or agency gives written concurrence to all or certain methods of mining.

(2) *Exemptions.* This criterion does not apply to lands: To which the operator made substantial legal and financial commitments prior to January 4, 1977; on which surface coal mining operations were being conducted on August 3, 1977; or which include operations on which a permit has been issued.

(g)(1) *Criterion Number 7.* All publicly or privately owned places which are included in the National Register of Historic Places shall be considered unsuitable. This shall include any areas that the surface management agency determines, after consultation with the Advisory Council on Historic Preservation and the State Historic Preservation Officer, are necessary to protect the inherent values of the property that made it eligible for listing in the National Register.

(2) *Exceptions.* All or certain stipulated methods of coal mining may be allowed if, after consultation with the Advisory Council on Historic Preservation and the State Historic Preservation Officer, they are approved by the surface management agency, and, where appropriate, the State or local agency with jurisdiction over the historic site.

(3) *Exemptions.* This criterion does not apply to lands: to which the operator made substantial legal and financial commitments prior to January 4, 1977; on which surface coal mining operations were being conducted on August 3, 1977; or which include operations on which a permit has been issued.

(h)(1) *Criterion Number 8.* Federal lands designated as natural areas or as National Natural Landmarks shall be considered unsuitable.

(2) *Exceptions.* A lease may be issued and mining operation approved in an area or site if the surface management agency determines that:

(i) The use of appropriate stipulated mining technology will result in no sig-

nificant adverse impact to the area or site; or

(ii) The mining of the coal resource under appropriate stipulations will enhance information recovery (e.g., paleontological sites).

(3) *Exemptions.* This criterion does not apply to lands: To which the operator made substantial legal and financial commitments prior to January 4, 1977; on which surface coal mining operations were being conducted on August 3, 1977; or which includes operations on which a permit has been issued.

(i) (1) *Criterion Number 9.* Federally designated critical habitat for listed threatened or endangered plant and animal species, and habitat proposed to be designated as critical for listed threatened or endangered plant and animal species or species proposed for listing, and habitat for Federal threatened or endangered species which is determined by the Fish and Wildlife Service and the surface management agency to be of essential value and where the presence of threatened or endangered species has been scientifically documented, shall be considered unsuitable.

(2) *Exception.* A lease may be issued and mining operations approved if, after consultation with the Fish and Wildlife Service, the Service determines that the proposed activity is not likely to jeopardize the continued existence of the listed species and/or its critical habitat.

(3) *Exemptions.* This criterion does not apply to lands: to which the operator made substantial legal and financial commitments prior to January 4, 1977; on which surface coal mining operations were being conducted on August 3, 1977; or which include operations on which a permit has been issued.

(j)(1) *Criterion Number 10.* Federal lands containing habitat determined to be critical or essential for plant or animal species listed by a state pursuant to state law as endangered or threatened shall be considered unsuitable.

(2) *Exception.* A lease may be issued and mining operations approved if, after consultation with the state, the
